

## **Team Boca and Football Club Prime Form Partnership**

**FOR IMMEDIATE RELEASE: May 25, 2018, Boca Raton, FL:** Today, two of south Florida’s leading soccer clubs, Team Boca and FC Prime, announced a strategic partnership to align two of the nation’s strongest youth soccer programs.

Over the past months, Team Boca and FC Prime leadership have had several meetings, sharing club philosophies and long-term vision for enhancing youth soccer and creating new opportunities for players in Broward and Palm Beach Counties. A mutual passion for developing individuals on and off the field, using a holistic approach to make a positive community impact, illustrated the need for the immediate organization alignment. From the outset, both clubs have shared the same overriding collective goal of providing their players with the best possible path to play and to further their education at the college level.

Team Boca is nationally recognized with a rich history of competing at the highest level, developing elite players and placing hundreds of players into college programs across the nation. Over their 40-plus years, Team Boca has fielded numerous championship teams at the state, regional, and national level.

Football Club Prime was established with a vision to create an environment for, and to serve, players with aspirations to play at the collegiate and professional level. FC Prime currently operates in Broward and Brevard Counties and was recently admitted into the Elite Clubs National League (ECNL).

“This partnership greatly benefits all Broward and Palm Beach County players by providing them the unique opportunity to be members of two major clubs that are partnered with the common goal to develop the most talented players in South Florida,” said Bill D’Addio, Team Boca Soccer Club Director. “FC Prime has quickly established themselves as the leader in Broward County, competing in the nationally renowned ECNL, and we look forward to continued growth with them now in Palm Beach County as well.”

FC Prime Executive Director, Alan Hough, added, “The leadership at both clubs share a common goal and I am very excited about the partnership with Team Boca. Combining our organizational resources will provide endless opportunities for our players and the south Florida soccer community.”
